

IMPLEMENTATION SCHEDULE

The anticipated schedule of implementation of this Act 537 Special Study is provided in Table 1.

Table 1: Schedule of Implementation

Task	Completion Date
Submit the Special Study to the PADEP	February 2016
Receive the Approval of the PADEP	June 2016
Begin Design	October 2014
Apply for and Acquire All Necessary Permits for Construction	June 2016
Complete Final Design of Project	September 2016
Obtain Construction Financing	September 2017
Bid Project	July 2018
Award Construction Contracts	September 2018
Construction Complete and Customer Tap-in	March 2020

CONSISTENCY DETERMINATION

According to Act 537, all technically feasible sewage facility alternatives must be evaluated for consistency with certain acts, programs and policies. Through the development of the Special Study, it was determined that the best technically feasible alternative is to extend public sewage service into the Village of Southview. There are no expected inconsistencies associated with the identified project. The sewage collection, conveyance and treatment technologies identified herein are consistent with the following Acts, programs and policies, and do not require resolution during this planning phase of the project:

- Sections 4 and 5 of the Clean Streams Law
- Section 208 of the Clean Water Act
- Municipal Wasteload Management under PA Code, Title 25, Chapter 94
- Title II of the Clean Water Act
- Titles II and VI of the Water Quality Act of 1987
- Comprehensive Planning under the Pennsylvania Municipalities Planning Code
- Antidegradation requirements as contained in PA Code, Title 25, Chapters 93, 95 and 102
- State Water Plan developed under the Water Resources Planning Act
- Pennsylvania Prime Agricultural Land Policy
- Washington County Stormwater Management Plan
- Wetland Protection under Chapter 105
- Protection of rare, endangered or threatened plant and animal species as identified by the Pennsylvania Natural Diversity Inventory (PNDI)
- Historical and archaeological resource protection in conjunction with the Pennsylvania Historical and Museum Commission (PHMC)

Additional action may be required to demonstrate consistency with the above named acts, programs and policies. This will occur during the design and permitting phases upon implementation of the selected sewage facilities alternatives. For more information, refer to Section VI.B.
